

RADIO & TV JOURNALISM – 50th Anniversary & 2007 Reunion - STUDENT STRATEGY GROUP PROFILE

Kimberly Nguyen
Year: Senior
Graduation: December, 2008
Major Focus: Broadcast Journalism
Other Academic Focus: English
WISH LIST: To find an Internship in TV news. After graduation, I'm looking forward to doing stand up news anywhere. Career Goal – To be a Chief International Correspondent.

I am the only person in my family to pursue a career in Journalism.

While at San Jose State University, I thoroughly enjoy studying classes in the Communications department. I also like reporting on breaking news events, which happen every now and then around the San Jose State campus as well as in the surrounding community.

During the past couple of years, I have been fortunate to do a number of wonderful things at the Journalism School:

In addition to going through the journalism sequence, I've done some off-campus reporting not once but twice. I've been to Louisiana & Mississippi for the 50th Day Anniversary of Hurricane Katrina during Winter Break of 2007, and returned with a four-part news segment. As part of a Spring Break business trip to New York and Washington, D.C., which had been organized by three Journalism professors, I reported from New York (Ground Zero) and Washington, D.C.

Special Skills:

- I read, write, and speak three languages fluently - German, Vietnamese and English.
- Video editing and News package creation using Adobe Premiere Pro

Look to see me reporting Local Breaking News near you.
